

Oakray “very impressed” by the reliability of Potterton boilers

Oakray Heating and Electrical Support Services in Brentwood, Middlesex, has carried out Potterton boiler replacements in approximately 500 properties for Brentwood Borough Council as part of the Decent Homes initiative. The Government’s definition of a Decent Home is that it should be warm, weatherproof and have reasonably modern facilities.

Originally established in 1979, Oakray is a privately owned company which prides itself on exceptionally high standards and outstanding service delivery. Its core business is in mechanical, heating and electrical services for commercial, local authority and social housing clients and Oakray maintains and services over 25,000 heating installations per annum.

Russell Sharpe, Contracts Manager at Oakray, explained why Potterton is the preferred supplier. “We have installed almost 500 Gold 24 HE combination boilers and Promax 24/2 HE Plus and have been very impressed with the reliability of the replacement boilers. Our engineers have been happy with the installations and we have had very positive feedback from both residents and Brentwood Borough Council.”

Potterton’s Gold Combi 24 HE has been recognised for its durability, ease of use and efficiency (its SEDBUK rating is 91.1%) in an independent survey conducted by the consumers’ champion, Which? magazine, receiving a ‘Best Buy’ accolade for the second year running in 2007. With 91.3% efficiency, Potterton’s Promax 24/2 HE Plus contributes towards achieving level three on the Code for Sustainable Homes.
